Overview/key issues

- ▶ With the crisis evolving at different stages globally, government authorities continue to implement immigration-related measures to limit the spread of the COVID-19 pandemic and protect the health and safety of individuals in and outside of their jurisdictions.
- ▶ Measures to stem the spread of COVID-19 include the following:
 - ▶ Entry restrictions and heightened admission criteria for certain populations (including prohibitions on entry from high-risk locations)
 - ▶ Mandatory “stay-home notices” and quarantine orders for newly admitted citizens, residents and visitors (whether in state facilities, hotels or private residences)
 - ▶ Temporary suspension (and in some cases, permanent cancelation) of existing (valid) visas issued prior to COVID-19 and suspension of issuance of new visas
 - ▶ Introduction of heightened eligibility criteria and application requirements where visas are being issued (including suspension of visa waiver agreements and enhanced document requirements for new applications)
- ▶ Some governments are announcing flexible policies to prevent temporary residents who are unable to travel from becoming overstayers under immigration laws, and enabling virtual right to work.

Quarantine / isolation requirements

- ▶ **Duration.** Air travelers seeking admission to the US from a foreign country will be required to comply with CDC [guidelines](#) for self-quarantine or self-isolation.
- ▶ **Location.** State-specific quarantine measures may be in effect as well. The latest guidance can be found [here](#).
- ▶ **Exemptions.** None.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews etc. As of 21 January 2021, Executive departments and agencies must immediately require masks to be worn in compliance with the CDC [requirements](#) while in airports, or on commercial aircraft, trains, public maritime vessels (including ferries), intercity buses, and all forms of public transportation. The Coordinator of the COVID-19 Response and Counselor to the President (COVID-19 Response Coordinator) is responsible for encouraging physical distancing on public modes of transportation.

Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Visas are not canceled and they may be used to enter the US, provided the visa holder is not otherwise inadmissible (e.g. if they were present in the Schengen Area).
- ▶ **New visa issuance.** The Department of State (DOS) has temporarily suspended most routine immigrant and non-immigrant visa appointments. Exceptions for national interest may be entertained at the discretion of the US authorities. The DOS is currently limiting visa processing to emergencies, which are fairly narrowly defined as including urgent medical care for oneself or a relative or an employer that must be accompanied, a funeral/death, urgent business travel, or students or exchange visitors. A proclamation suspending entry into the United States of certain immigrants and non-immigrants who present a risk to the US labor market following the outbreak of COVID-19 is in effect until 31 March 2021.
- ▶ **Visa extensions/renewals.** Foreigners entering under the Visa Waiver Program (VWP), also known as the Electronic System for Travel Authorization (ESTA), are not eligible to extend their stay or change status. If an emergency such as COVID-19 prevents the departure of a VWP entrant, United States Citizenship and Immigration Services (USCIS) has discretion to grant a period of satisfactory departure of up to 30 days. USCIS has temporary authority to grant an additional 30 day period to VWP entrants who are unable to depart after the initial 30 day period. Satisfactory departure requests must be made by calling the USCIS Contact Center at 1-800-375-5283.
