

EY Law Entity Compliance and Governance

Technology-enabled entity management services

**Are you an organization that recently acquired new global entities?
Do you have global oversight of all your entity tasks across jurisdictions?**

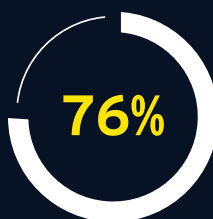

Contending with organizational cost and resource pressures while meeting legal entity obligations and requirements across jurisdictions make effective entity management unnecessarily time consuming and burdensome.

Staying current with regulations

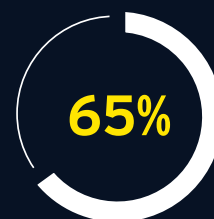

of organizations find it difficult to stay up to date with regulations across jurisdictions.

Limited resources

of law departments have five or fewer employees aligned to legal entity management. Many use resources from other functions: 73% finance and 53% tax.

Lack of data and technology

of companies utilize purpose-built legal entity management technology, but 67% don't have access to accurate, up-to-date information about their entities.

01

How to address your entity management challenges with EY Law services

Entity data reliability and deal readiness

EY Law teams provide a customizable approach that can include:

- ▶ Legal managed services teams to help migrate and maintain data and administer your entity management systems
- ▶ Legal entity health checks to confirm the accuracy of entity data and conduct governance analytics
- ▶ An entity management system with an intuitive user interface, customized dashboards and data analytics

Benefits

- ▶ Access to reliable entity data and analytics to support strategic decision-making
- ▶ Improved compliance and risk management
- ▶ Confidence in your subsidiary data in anticipation of transaction activities

Spend visibility

EY Law teams help deliver economies of scale across the business that provide predictability and help reduce costs through:

- ▶ An operations tool that allows you to request a range of services and view cost analytics
- ▶ Compliance dashboards for greater visibility into tasks and deadlines
- ▶ Fixed-fee pricing with savings on technology license costs

Benefits

- ▶ Lower costs
- ▶ Budget predictability
- ▶ Increased transparency into subsidiary management to reveal inefficiencies

Patchwork of providers handling entity compliance tasks

EY Law teams help decrease risks associated with a decentralized framework through:

- ▶ A dedicated central coordination team that is accountable for managing processes and communications
- ▶ Global coverage with a single point of contact to standardize and consolidate entity compliance
- ▶ Market-leading technology that streamlines processes and provides insights across jurisdictions

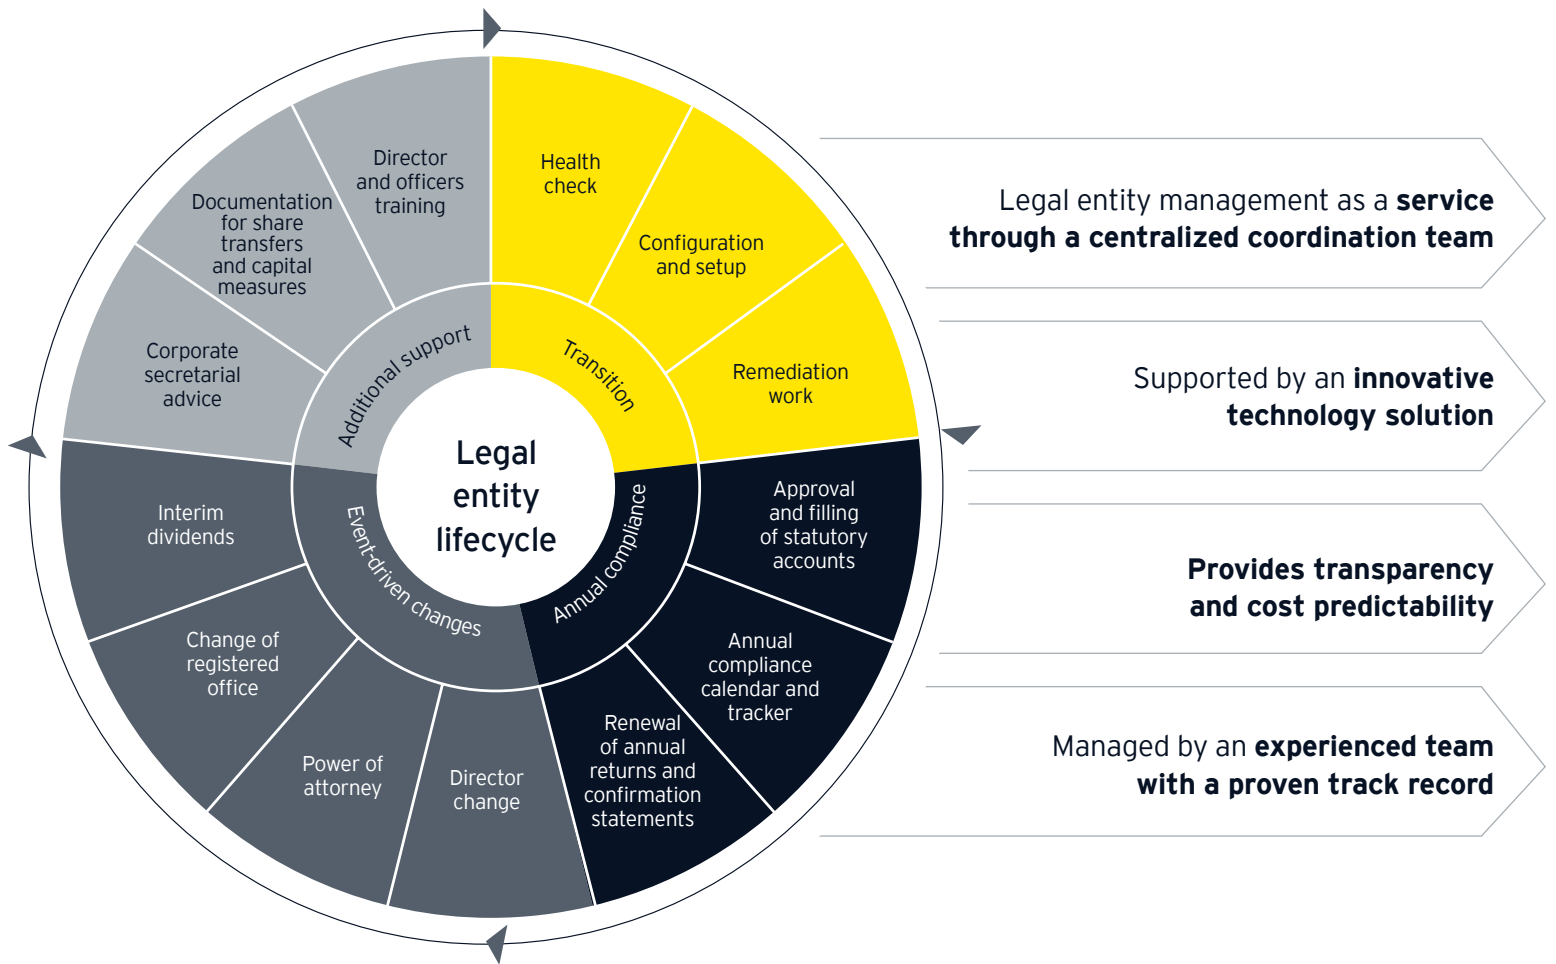

Benefits

- ▶ Centralized point of contact for greater consistency and quality control
- ▶ Access to accurate data and analytics, providing increased transparency into potential risks
- ▶ Added efficiency in handling entity compliance needs

02

EY services across the legal entity lifecycle

EY compliance and governance professionals offer technology-enabled services to support the entire legal entity lifecycle, from incorporation, to dissolution, including annual and ad hoc compliance, transactional support, health checks, and director and officer training.

03

EY Law Entity Management platform

Integrated with EY services, the EY Law Entity Management platform offers an interchangeable suite of intuitive and customizable tools, including a matter management module, director e-learning portal and repository that allows you to view your entity data and copies of your corporate documentation in one place.

Benefits of working with EY Law:

People

Centrally managed network of compliance and legal professionals in more than 140 jurisdictions who are experienced in local regulations and requirements, which fosters a scalable approach as you grow or add legal entities

Process

Efficient, effective and responsible support for your global entities, from onboarding, to steady state operations, including all transformation initiatives tracked through a global compliance calendar

Technology

Innovative technology platform that automates service requests and provides visibility into the status of compliance activities, expected completion dates, ad hoc requests and access to entity data

04 | Value to you

EY Entity Compliance and Governance services and technology help you simplify subsidiary management, including:

Reduced strain on internal resources

Strategic decision-making informed by greater access to accurate subsidiary data

Decreased business and reputational risks

A high level of cost control and predictability

Assurance that the organization is meeting its compliance obligations

EY | Building a better working world

EY exists to build a better working world, helping to create long-term value for clients, people and society and build trust in the capital markets.

Enabled by data and technology, diverse EY teams in over 150 countries provide trust through assurance and help clients grow, transform and operate.

Working across assurance, consulting, law, strategy, tax and transactions, EY teams ask better questions to find new answers for the complex issues facing our world today.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. Information about how EY collects and uses personal data and a description of the rights individuals have under data protection legislation are available via ey.com/privacy. EY member firms do not practice law where prohibited by local laws. For more information about our organization, please visit ey.com.
